

AMENDED IN SENATE JULY 14, 2009

CALIFORNIA LEGISLATURE—2009—10 REGULAR SESSION

ASSEMBLY BILL

No. 1398

Introduced by Assembly Member Blumenfield
(Coauthor: Assembly Member Fletcher)
(Coauthor: Senator Padilla)

February 27, 2009

An act to amend Section 60010 of the Education Code, relating to instructional materials.

LEGISLATIVE COUNSEL'S DIGEST

AB 1398, as amended, Blumenfield. Technology-based materials.

Existing law defines specified terms used in provisions of law related to instructional materials, including technology-based materials. Existing law defines technology-based materials as basic or supplemental instructional materials that are designed as learning resources and that require the availability of electronic equipment in order to be used. However, the technology-based materials do not include the electronic equipment required to make use of those materials.

This bill would ~~change~~ *revise* the definition of technology-based materials to specify that they may include the electronic equipment required in order to use them if that equipment is to be used by pupils and teachers as a learning resource. *This bill would provide that its provisions not be construed to relieve a school district of the obligation to provide pupils with sufficient textbooks or instructional materials, as specified. The bill would prohibit a school district from procuring this electronic equipment pursuant to the bill if a county office of education determines that the district is out of compliance with this obligation.*

Vote: majority. Appropriation: no. Fiscal committee: no.
State-mandated local program: no.
